

物件印不出來怎麼 debug!!

~~\_\_\_\_\_~~

感謝小精靈的努力

# 物件印不出來怎麼 debug !

Debug 愛配這個

```
error[E0277]: `Foo` doesn't implement `Debug`
--> src/main.rs:9:22
   |
9  |     println!("{:?}", foo);
   |                  ^^^ `Foo` cannot be formatted using `{:?}`
   |
   = help: the trait `Debug` is not implemented for `Foo`
   = note: add `#[derive(Debug)]` to `Foo` or manually `impl Debug for Foo`
help: consider annotating `Foo` with `#[derive(Debug)]`
   |
1  + #[derive(Debug)]
2  | struct Foo {
```

感謝小精靈的努力

# 物件印不出來怎麼 debug !

Debug 愛配這個

```
[derive(Debug)]
struct Foo {
    name: String,
}

fn main() {
    let foo = Foo { name: "test".to_string() };
    println!("{:?}", foo);
}
```

Output => { name: “test” }
