# 物件印不出來怎麼 debug！
## Debug 愛配這個

```rust
struct Foo {
    name: String,
}

fn main() {
    let foo = Foo { name: "test".to_string() };
    println!("{:?}", foo);
    // JS => console.log("%o", obj);
}
```

# 物件印不出來怎麼 debug！
## Debug 愛配這個

```
error[E0277]: `Foo` doesn't implement `Debug`
 --> src/main.rs:9:22
  |
9 |     println!("{:?}", foo);
  |                      ^^^ `Foo` cannot be formatted using `{:?}`
  |
  = help: the trait `Debug` is not implemented for `Foo`
  = note: add `#[derive(Debug)]` to `Foo` or manually `impl Debug for Foo`
help: consider annotating `Foo` with `#[derive(Debug)]`
  |
1 + #[derive(Debug)]
2 | struct Foo {
  |
```
